

About Us

AFF is a non-profit organization established under Societies Act of Alberta, Canada and has been operational since 2020. We are working on obtaining Charitable status.

AFF is helping and providing necessities of life to the people of Calgary and surrounding areas and trying to make them physically and mentally healthy.

Where We Are

Currently, we are operating in and around Calgary and will extend our operation to all North America and all over the world in the future. We believe that the families getting our support will become active members of AFF and one day will support us with their time, funds, knowledge, and network.

Our donors have been offering their assistance through acts of kindness, passion, and sharing, and we now need to continue to grow with increasing number of families.

Our tomorrow depends upon today's action. Let's make our commitment to do a little more every time. This is a long-lasting investment which will pay you back in the shape of prosperity, health, and happiness your community.

Our Performance In 2022

We served 168 families (720 family members). Our collection of donations was \$30,391.70 and we spent \$32,254.49.

Plan For 2023 And Beyond

Our goals are to provide other services such as helping with medicine, education and educational materials, rental assistance, job search assistance, resume writing, guiding, and assisting overseas students arriving in Calgary.

How You Can Help

You can help and contribute to AFF operations donating via E-transfer, PayPal or Pledge form using below link:
