

Assured Family Foundation Report for 2023

Board of Directors

February 11, 2024

Assured Family Foundation (AFF)

AFF was established as a non-profit organization in 2021 under the Societies Act of Alberta, Canada. The origins of this organization are not very old, but its functions began in June 2020 with the support of a few founding members who were influenced by the status of people's quality of life with the emergence of Covid 19 and its multi-faceted impacts on people.

With the passage of time community leaders continued to join hands and finally this organization came into existence with objectives to:

- Support families by providing required goods and services to make them happy and physically and mentally well.
- Encourage and empower them to become proud Canadian citizens so they can have bright future and contribute to their community.
- Strive for each person to attain a sense of peace, be fed and feel that help is just a phone call away
- We believe that the families that seek and receive our support will become an active member of AFF and one day they will support us with their time, knowledge, funds and network.

AFF is striving to get charitable status of this organization from Canada Revenue Agency (CRA) and subsequently we will be able to issue Tax Deductible Receipts for donations.

Our performance in 2022-2023

During the period of Jan-Dec, 2023, AFF served 156 families (total of 660 members). As compared to the same period of 2022, AFF served 168 families (total of 720 members). In 2023 total number of families decreased a little as few families became self-dependent and they don't take our support anymore. However, since Dec 2023 AFF experiencing surge of onboarding new families exponentially.

AFF spends zero dollar on management of all administrative activities and we spend all funds for the cause we collect.

Year	Number of families served	Number of family members	Actual / Projected
2022	168	720	Actual
2023	156	660	Actual
2024	200	920	Projected

Activities performed during 2023

- Provided groceries and essentials at doorsteps of 156 families
- Arranged household kitchen items; utensils and crockeries, appliances (gently used TV, Refrigerator, mattresses), blankets and clothing
- Supported refugee families with significant help to set up their homes

Plan for 2024 and beyond

Aside from providing basic requirements, our next goals are to provide other services such as medicine, education and educational materials, rental assistance, job search assistance, resume writing, and guiding and assisting overseas students arriving in Calgary.

What we need in 2024 and up

AFF is committed to keep abreast with the updates to our donors, volunteers, financers and friends on periodical basis.

We would like to raise enough money to continue AFF's goals and expand our reach beyond Calgary and Canada.

AFF is asking for 50 people who are willing to pay \$100 on a monthly basis and support our cause. Regardless, any amount of money helps, and only \$15 per person per family member is required.

AFF is committed to keeping our contributors, volunteers, fund raisers and friends up to date on a regular basis.
